

2nd Shift Production Supervisor

Job Description

We are seeking a Production Supervisor (2nd Shift) to join our team at Visual Marking Systems. In this role, you will oversee the production process, ensuring efficiency and quality in our high-performance printing operations. Your leadership will be crucial in maintaining our commitment to excellence and sustainability.

Our 2nd Shift operates 4:15pm - 3:00am, Monday - Thursday (four 10-hr shifts).

Responsibilities:

- Supervise daily production activities to ensure efficiency and quality standards are met.
- Manage and train production staff to optimize workflow and performance.
- Implement best practices for safety and compliance within the production environment.
- Monitor production metrics and report on performance to management.
- Collaborate with other departments to ensure seamless operations and communication.
- Troubleshoot mechanical issues and coordinate maintenance as needed.
- Maintain inventory levels of materials required for production.

Requirements

- Proven experience in a supervisory role within a manufacturing or production environment.
- Strong mechanical knowledge with the ability to troubleshoot equipment issues.
- Excellent communication skills for effective team management.
- Basic math skills for inventory management and reporting purposes.
- Familiarity with printing is a plus but not required.

Submit your resume to info@vmsinc.com.
